

PEDIATRIC CLINICAL PARAMETERS FOR ADMISSION AND RECERTIFICATION

PATIENT'S NAME: _____ ID#: _____

NOTE: CIRCLE THE APPROPRIATE DATA AS COMPLETELY AS POSSIBLE.

GENERAL CHARACTERISTICS

1. Patient is under 18 years of age, or is being attended by pediatric specialist.
2. Child has probable life expectancy of months rather than years.
3. Consider the *entire* physical and psychosocial condition of the patient.
4. Review History, physical examination of the presenting terminal diagnosis.
5. Review medications.
6. Patient and family should desire no further aggressive therapy for the terminal illness, acute care hospitalization or cardio pulmonary resuscitation.
7. Patient with multiple medical problems that dictates a terminal prognosis. A symptom management approach rather than an aggressive approach to care is indicated.

TRISOMY 13

Genetic defect resulting from extra chromosomes. History/Physical findings may include:
